Qualifications of Brake Inspectors
(49 CFR Section 396.25)

(a) The motor carrier shall ensure that all inspections, maintenance, repairs, or service to the brakes of its commercial motor vehicles are performed in compliance with the requirements of this section.

(b) For the purposes of this section, "brake inspector" means any employee of a motor carrier who is responsible for ensuring all brake inspections, maintenance, service, or repairs on any commercial motor vehicle, subject to the motor carrier's control, meet the applicable Federal standards.

(c) No motor carrier shall require or permit any employee who does not meet the minimum brake inspector qualifications of section 396.25(d) to be responsible for the inspection, maintenance, service, or repair of any brakes on its commercial motor vehicle.

(d) The motor carrier shall ensure that each brake inspector is qualified as follows:

- (1) Understand the brake service or inspection task to be accomplished and how to perform that task; and
- (2) Be knowledgeable of and have mastered the methods, procedures, tools and equipment used when performing an assigned brake service or inspection task; and
- (3) Be capable of performing the assigned brake service or inspection by reason of experience, training, or both as follows:
 - (i) Has successfully completed an apprenticeship program sponsored by a state;
